

Barbados KC - Liz Dunhill

Thank you for the invitation to judge at this beautiful island, I was pleasantly surprised at the quality of the dogs. The heat of the day made it difficult for some of the dogs to be assessed and expressions and ear set had to be found and encouraged. My main winners pleased me with Best in Show going to the fabulous young Bullmastiff male bred in the UK and reserve to the great showman French bulldog, again UK bred. Congratulations to all the winners. Some of the handlers could do with more training along with their dogs. I met some very enthusiastic owners with great passion for their dogs and Good luck with your breeding programs and your fantastic rearing of your dogs in such a hot climate you are to be commended. Use your training classes. Train your dogs for the show, learn new skills and you will enjoy your hobby. Thank you for your hospitality and friendship, and to the Kennel Club, you have a great bunch of people on your committee. Good luck for the future.

Super head, clean top skull. Good ears when he uses them, good dark eyes, good proportioned muzzle and large open nostrils, correct strong under jaw, good flews. High withers. Strong neck, straight front, compact body with well sprung ribs and short loin, would like more angulation to hindquarters, as he's rather straight in rear. Lacked enthusiasm on the move due to heat. I really liked his type, see he is from the same stable as the winner . Moved soundly. RCC

I found this male rather houndy in head, and very wet and wrinkled, narrow skull with not enough space between the high set ears, muzzle long and has a wry mouth. Upright shoulder, long in Loin. Topline needs to firm and rear is cow hocked. He is narrow all through and needs lots of work and development. He needs bulk and work and is poor in muscle. Has a long stride in profile, but this dog really needs some work and time to mature.
