All Breeds Championship Show – 7th May 2006

Critique

Many thanks to the Officers and Committee for bringing me and Brenda to your beautiful country. Just a few words on the overall quality. Many breeds I thought were as good as anywhere I have seen them. The biggest fault I found was movement. But don't worry this is a global problem. If you had the perfect dog what would be the point in anyone showing. The only way around this is for the owners of the breeds with biggest entries try to make sure the next dog you import is 100% sound. All the best for the future.
